With its 19-car showroom, 22-ramp aftersales facility, an outdoor display of 60 used cars and 225 parking spaces, it's needless to say the Leicester Audi car centre boasts the best of facilities for its customers.

Spanning across a 3.5-acre site, its construction was a large project, carried out over 18 months. Michael Nugent Ltd were contracted to install CT/VT LPHW heating, plumbing (including external water main), sanitary provisions, ventilation and exhaust extraction systems.
