COMPLETION November 2007

St Patrick's College aims to provide a high-quality, well-equipped place of learning for its many pupils. With multiple science laboratories, sports facilities, ICT suites, technology rooms and catering facilities, the school ensures pupils have access to the best resources.

Michael Nugent Ltd installed all mechanical services during its rebuild, including heating, plumbing, ventilation and public health installation, as well as fitting fume cupboards, fume extraction systems and gas supplies to all science laboratories.
